</tr>
</tbody>
</table>

Check all that apply:

- [ ] Post appropriate **signs** identifying the area under construction and hazards to the public. Setup clearly visible public **access restriction** barriers.
- [ ] Keep **exits** unobstructed and accessible. Designate alternate exits if closure of an exit is required and post appropriate signs.
- [ ] Assure that all workers are **readily identifiable** while working in an occupied building.
- [ ] Keep **access** to building and fire department connection unobstructed.
- [ ] Maintain a clear and accessible path for persons in **wheelchairs** or identify alternate route.
- [ ] Keep all **fire alarms**, detection or suppression systems 100% functional for the full duration of the project. Setup a **fire watch** if any part of a fire alarm, detection or suppression system is deliberately or inadvertently disabled.
- [ ] Keep flammable and combustible **fire load** at the lowest level reasonable achievable.
- [ ] Comply with the following:
  - The **Florida Right-to-Know Law**
  - Provide prompt notification to EH&S regarding any **hazardous materials release** or **environmental contamination**
- [ ] Maintain effective **dust barriers** for the duration of the project.
- [ ] Implement effective controls to prevent or mitigate potential **IAQ concerns** including but not limited to **ventilation control**, selection of low hazard products and job scheduling.
- [ ] Obtain a Welding Permit from EH&S if the project involves welding.
- [ ] **Lock and tag** all energy sources affected by this project in accordance with 29 CFR 1910.146 and appropriately coordinate with Facilities Maintenance personnel.
