

NATIONAL COLLEGIATE EMS WEEK

EH&S | FIU PanthERS Squad | Emergency Management | FIU Police | Miami Dade Fire Rescue

EVENT DATE: Friday, November 13, 2015

EVENT TIMES: 10:00 AM to 2:00 PM

LOCATION: North side of the Graham Center, outside of the Atrium

Dear members of the University Community,

To commemorate Collegiate Emergency Medical Services (EMS) Week, the FIU EH&S Department is planning a static display at our MMC campus to showcase the EMS response and continuum of care available to our University community. An integral part of that continuum of care is FIU Police's response to our on campus medical emergencies. We want to take the opportunity to have our students, faculty, staff and visitors get an up close and personal perspective of the combined capabilities of the EH&S, Emergency Management, Police, the FIU PanthERS Squad and Miami Dade Fire Rescue.

EH&S will be setting up in a highly visible location to allow as many of our University community members to see the equipment, talk to the fire fighters, officers and student volunteers. We will also provide an opportunity for people to practice their CPR skills, learn more about the use of an AED, as well as obtain information about public safety, support function capabilities and services.
