Hazardous Waste Request Pick-up Form

Type in your Panther ID (Use the autofill button if you completed this form more than three times) and your personal information. Then enter in the names of the laboratory personnel associated with your lab. If you do not see a member in your lab or having difficulty filling out this part of the form, contact Farhad Agha at Fagha@fiu.edu or #7-2622
Hazardous Waste Request Pick-up Form

Read through the form and fill out the waste description section.
Hazardous Waste Request Pick-up Form

When filling out this section provide the name of the chemical and percent of the content (content must equal 100%).
Hazardous Waste Request Pick-up Form

When inserting the content percentage for each chemical, type/click the name of the chemical and in the “% of content column” insert the percentage of the content. It is important to press attach after each chemical submission. The total percent of content must equal to 100%. For example, John Doe attached water to his form and showed that the content percentage was 20%. Then he also inserted sulfate to the form and showed the content percentage equals to 80%. John Doe’s total content percentage equals 100%.
