Fall Into Safety

October 2023

Florida International University | Department Of Environmental Health & Safety | ehs@fiu.edu

Happy October and November! We aim to provide you with all the necessary information to help you be prepared. As Benjamin Franklin once said, "By failing to prepare, you are preparing to fail."

In this Months Newsletter

- **Fire Prevention Awareness Week:** Join us on **Oct 10** in **Graham Center**, by the Panther Pit, between **10:00 AM and 2:00 PM**.
- Congratulations to FIU's Boating Safety Officer Annie Sevon, featured in this month's Safety Shoutout!

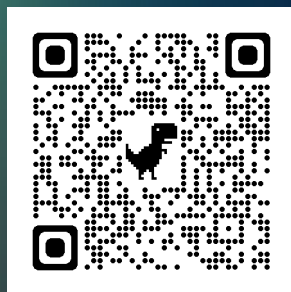

Safety Resources You Should Know About

- The FIU Police Department allows you to stay connected using the free Rave Guardian App, attend a free Self Defense Awareness Course (S.A.F.E. Course), and request a Police Escort if you find yourself on campus late at night and must go to your car or a different building.
- Check out the Department of Emergency Management's FIU Alert emergency notification system, maps that indicate the locations of Safety Equipment, and the FIU Disaster Volunteer Program.
- The Department of EH&S has a reporting form that captures close calls, unsafe conditions, or risky working practices. EH&S offers a variety of safety trainings, available online or in person. Visit the EH&S Training webpage to see all the online trainings or Calendar for upcoming in-person trainings.

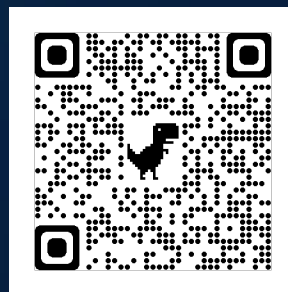

Closing October 31st: Laboratory Self Audit (LSA) and General Safety Self Audit (GSSA)

- The LSA and GSSA are closing soon! Check out the web pages to determine if you must complete a self-audit, a Video Introduction Guide covering frequently asked questions, a Preview and a checklist for a quick walkthrough, and access to the self-audits.
